9 am Daily Orientation
9:15 am Jewelry New Skills
10:45 am Morning Projects
12:15 pm Lunch
1 pm Waterpark & Game Tent
2:15 pm Afternoon Projects
3:30 pm Daily Review
3:45-4 pm Departure

Welcome to our Jewelry Making Summer Camp! Designed for campers who love creativity, style, and hands-on artistry, this program offers an exciting introduction to the world of jewelry design. Campers will explore a variety of techniques, including, but not limited to, beading, wire wrapping, and charm creation, while working with different materials such as beads, cords, and metals. Guided by experienced instructors, they'll design and craft their own unique pieces—from bracelets and necklaces to earrings and keychains. Each project encourages creativity, fine motor skills, and attention to detail, while allowing campers to express their personal style. By the end of the week, every camper will leave with a collection of handmade jewelry and the confidence to keep creating long after camp ends.

Programs will take place in collegiate classrooms with all necessary equipment provided. Additional recreational games and Water Park activities supplement the daily curriculum to give campers a balanced day of creativity and fun.
