Future Stars Art Camp opens up the freedom to explore and discover your creative voice. Participants will be encouraged to develop artistic expression through experimentation with a variety of materials, tools and media. Campers will explore various painting and drawing techniques and gradually begin to create 3-D sculptures using upcycled materials. Some examples of project choices include articulating figures with corrugated cardboard, paper mache piñatas, African mask-making, and weaving boards just to name a few.

Programs will take place in collegiate classrooms with all necessary equipment provided. Additional recreational games and Water Park activities supplement the daily curriculum to give campers a balanced day of creativity and fun.
